

Fiber Optic Terminal Box

Description

It is used as a termination point for the drop cable to connect with patch cable in FTTH indoor application. It integrates termination, storage and cable connection in one solid protection box.

Features

1. Dust-proof design with IP-45 Protection level.
2. Integrated with splice cassette and cable management rods.
3. Manage fibers in a reasonable fiber radius condition.
4. Easy to maintain and extend the capacity.
5. Suitable for the fusion splice or mechanical splice.
6. Easy for installation and removal.
7. 2 ports cable entrance for patch cable.
8. Screw installation
