

Fiber Optic Tool Kit

Fiber Optic FTTH tool kit is a simple and convenient integration solution for FTTH fiber-to-the-home quick-connect construction, such as, stripping, fiber cutting, cleaning and testing. It is economical and practical, and is an ideal tool for construction operators.

Product Details

Item 1: Optical power meter

Power Detecting Range	-70~+10dbm	Probe	InGaAs
Wavelength(nm)	800~1700	Standard Degree	85,098,013,001,310,100,000,000,000
Display Resolution	0.01dBm	Working Temp(°C)	-10~60
Storage Temp(°C)	-25~70	Automatic Shutdown Time(min)	10
Dimensions(mm)	180*83*28	Power Supply	Li-on rechargeable or Alkaline battery No.5

Item 2: Visual Fault Locator

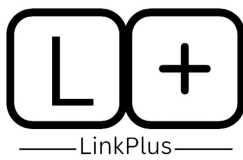

Visual fault locator is integrated with optical power meter

Optional distance: 5km 10km 20km 30km

Color Orange or Blue optional

Default measurement range: -70~+10dBm

Support SC, FC, ST connector

Contact us: info@linkplus.com.es

Support testing for 7 kind of wavelength

Support regular shut down with backlight, automatic shut down

Item 3: FC-6S fiber cleaver

Bare Fiber Diameter	125 μ m	Fiber Cutting Length	10mm
Application of fiber core number		Single core ~12 core strip core wire	

Item 4: Wire Stripper

Used for 3.1 x 2.0 mm rubber-insulated wire Belt scale, fatigue resistance, pressure resistance

Item 5: Miller Clamp

125um fiber coating layer for peeling Top 1.98mm open hole stripping out shield

Item 6: Carry Bag

Portable bag/Toolkit, is made of high-density oxford fabric Unbreakable, Wear-resistant, Waterproof

Item 7: Others

Other accessories, empty alcohol bottle, "L" Tool, FC Adapter, etc
